Subject: Luxulyan PC - 2 points in response to Cornwall Statement of Community Involvement for Planning

I realise that the deadline has passed, but I hope Luxulyan's response will be read and considered generally.

Luxulyan Parish Council supports the document *Community Involvement for Planning*, especially on two points.

1) Luxulyan PC strongly supports efforts to use PACE (Pre-application Community Engagement) regularly. As the procedures for PACE are used regularly and thoughtfully PACE will mature into a highly effective community development tool.

2) The wealth of local knowledge and community commitment that town and parish councillors bring to planning issues are often undermined by a lack of procedural knowledge. Cornwall Council would do well to support the training of local council members so that they can effectively influence and support development in Cornwall.

Yours sincerely,
Christine
