

## Pay on Exit Instructions

The driver takes a ticket when they enter the car park.

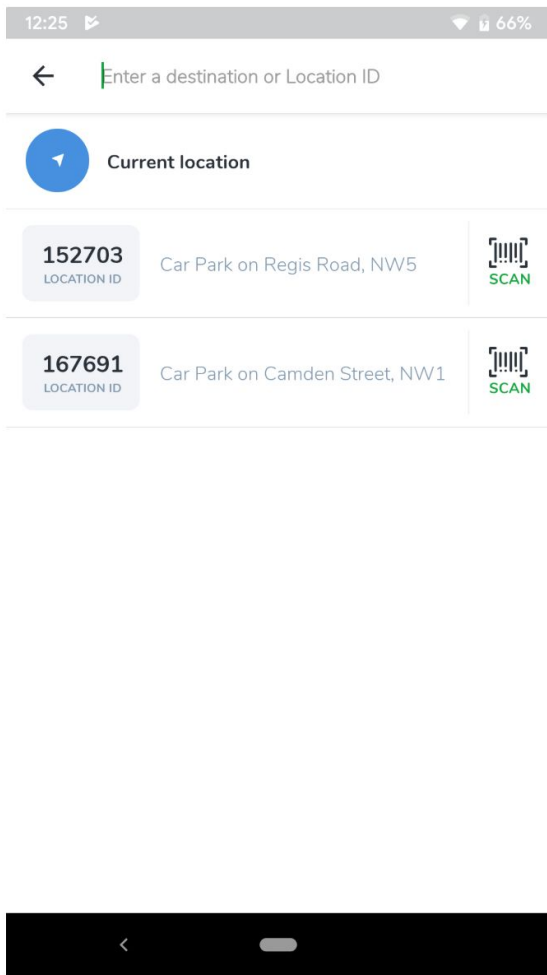

If the driver has the app installed and is in close vicinity of the car park, they will see an option to scan on the landing page.

## Landing Page

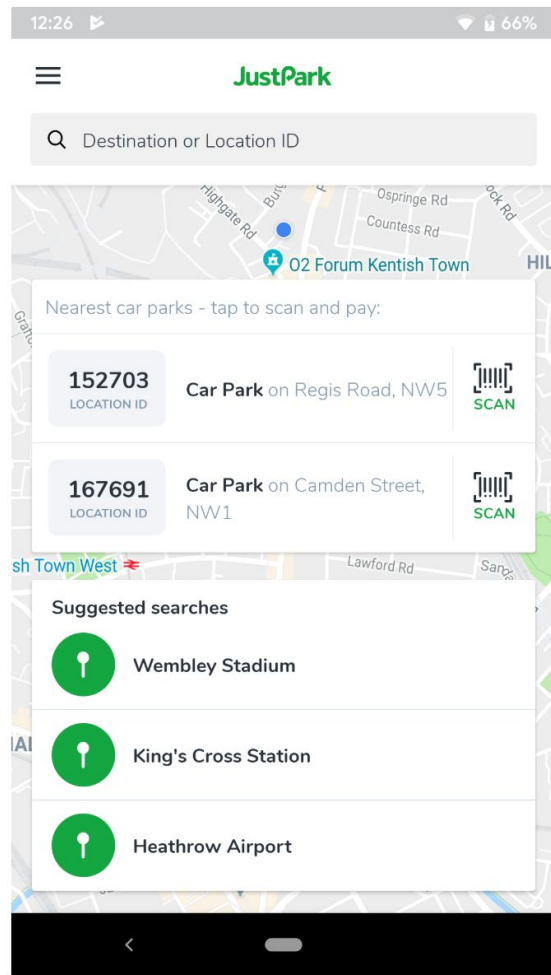

The Scan button will also appear on the search page and map landing page as well.

## Search Page

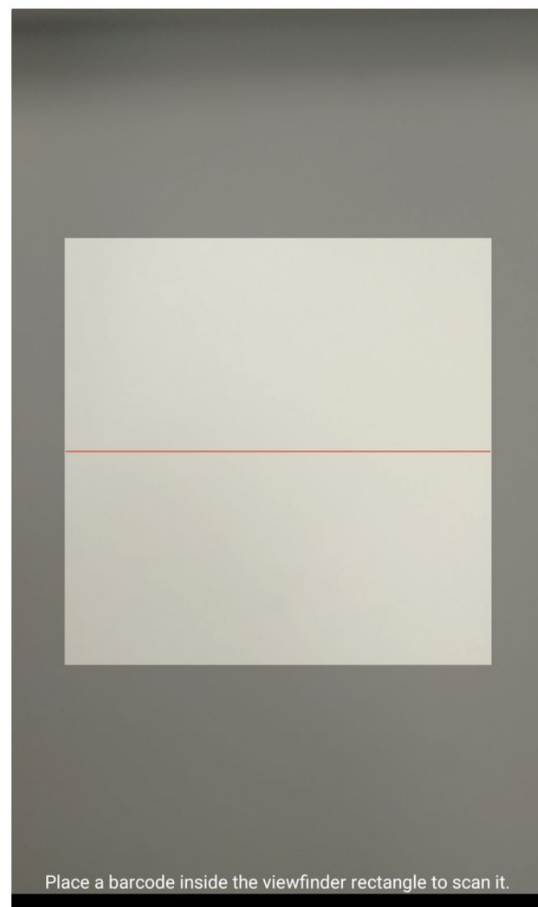

## Map landing page

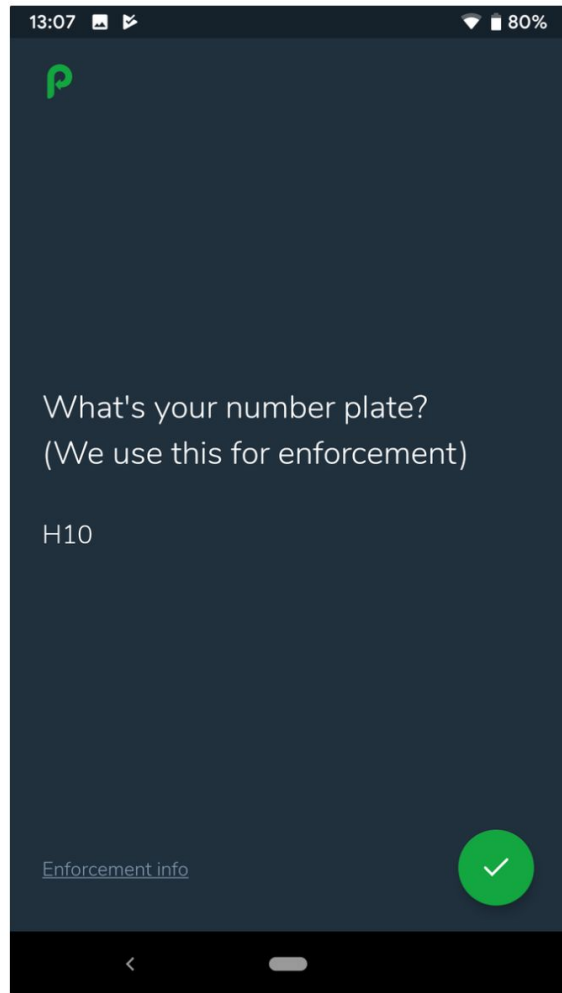

Clicking on the scan button will bring up the ticket scanner screen (pictured here) which will allow the driver to scan a ticket barcode.

## ticket scanner screen

If the driver isn't logged in they will get a screen asking for the Vehicle Number Plate after scanning the ticket.

### checkout summary page

Upon entering the Vehicle Number Plate, or if the user is logged in, they will be taken to the checkout summary page which is the same as any normal pay on exit checkout.
