

Anna Kakucs

My name is Anna Kakuc and I'm from Romania and I arrived in the UK three years ago. I came here to work.

One year ago I came to Adult Education to study because I had to improve my English, I only knew basic English but not enough. It was a very good choice to come here to study and I improved my English and phone calls, I can answer the phone no problem anymore.

In time I did an IT course and I have started a maths course too. I'm really happy with it and I've learnt a lot.

My English has improved, my vocabulary, my grammar, and my understanding (has improved) which is a huge step for me.

What's going on here is very relaxed, which is very important to me. You aren't feeling stressed, you are very welcome, they are very understanding. Your tutor is always by your side. You are not stressed by not knowing the answers, it's very easy as it's a very relaxed environment.

I can say the tutor Karen is a professional, she is very understanding, she is very kind and she will do things again and again if necessary and her helper makes sure things aren't problems.
