Theme 3: Governance

Incident Assessment Group

1. Meets 3-5 times a week
2. Includes the DPH, Public Health consultant, Health protection expert, data analyst as core members with representation from Food and Safety and NHS once a week
3. Reviews all cases, situations, testing data, test and track data and other relevant data to determine if any additional work needs doing or if outbreaks are starting etc

Cornwall's own track and trace scheme

1. Aim to call every case in Cornwall
2. Check up on their wellbeing, if they need support, if they understand the PH guidance and then go through their movements in week before symptoms
3. Very successful, loads of information being gathered and used to help respond to cases and outbreaks to reduce likelihood of transmission.

COVID19 Outbreak Alert Levels and Triggers

Informed by:

- [government guidance](#)
- information from the Joint Biosecurity Unit
- outbreak management experience
- local intelligence.

N.B. Contain Framework using local powers likely to be used from level 3 onwards but could be invoked at any level if a serious outbreak emerges.

Level 1: 'Contained' - Low rates and no confirmed significant outbreaks, single cases or clusters

Level 2: 'Managed' - Low rates but increasing with some exceedances and confirmed outbreaks requiring action

Level 3: 'Area of Concern' – Increasing rates, significant outbreaks with regional action and need for public facing comms

Level 4: 'Enhanced support' - Significant increase in activity, likely require support from neighbours/regional/national

Level 5: 'Area of Intervention' – Significant spread of infection requiring national support

Easy access to Cornwall and isles of Scilly weekly data

You can see the data for Cornwall here

<https://www.cornwall.gov.uk/coviddata>

Including:

Total confirmed cases and deaths

Daily lab reports (graph)

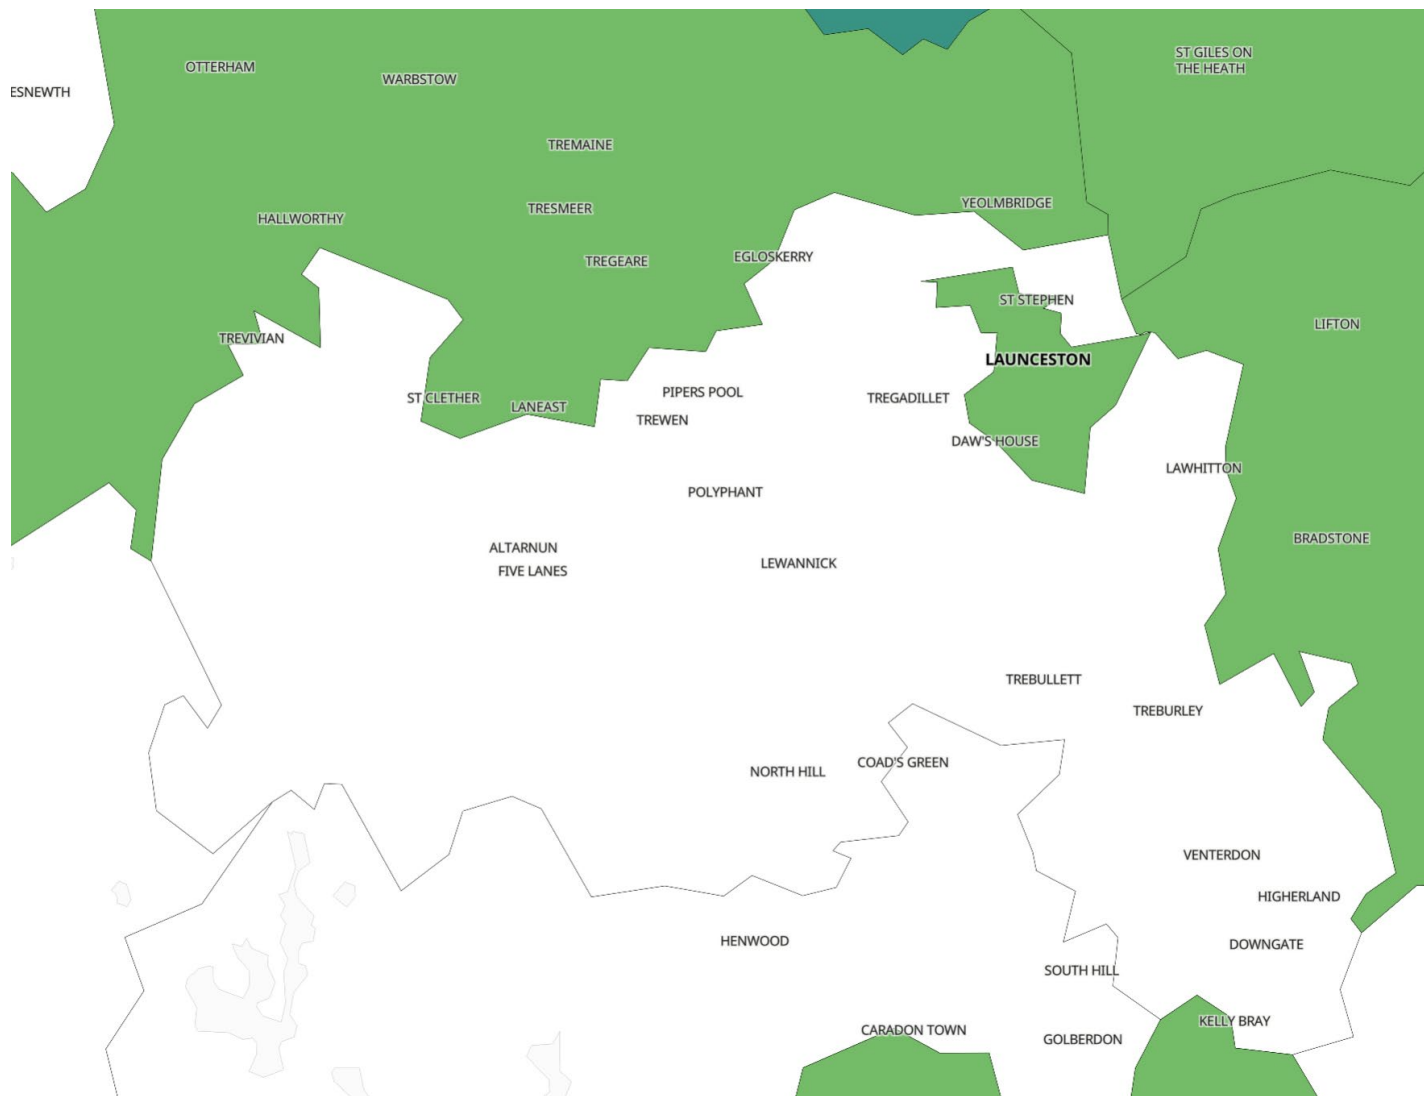

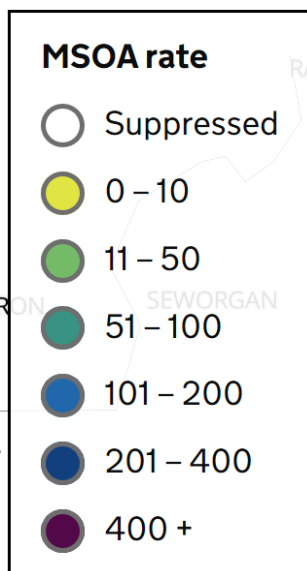

Mortality occurrence

Age standardised rates compared with other SW authorities

Last 7 days cases and mortality data

<https://coronavirus.data.gov.uk/details/interactive-map>

Launceston: 7-day cases (ending 4th Dec)

Altarnun & Stoke Climsland MSOA	Launceston MSOA
Fewer than 3 cases	3 cases
N/A	27.5 per 100,000

Cases in Launceston CNA

223 cases since start of pandemic (6th out of 19 CNAs (1 = CNA with the highest case numbers of the 19) However, as a rate per 100,000 Launceston CNA is ranked 2nd highest after Saltash and Torpoint.

Whilst Care Homes in the area have all had cases, 4 have had notified outbreaks since start of pandemic.

1 secondary school, 1 primary school and 2 nurseries within the CNA have reported cases during the Autumn Term.

The rate of tests per 100,000 in the CNA is higher than Cornwall as a whole at 27,059.1 compared to 20,869.2.

83% of cases tested through pillar 2 (mobile testing units or care homes).

Incident Response Teams

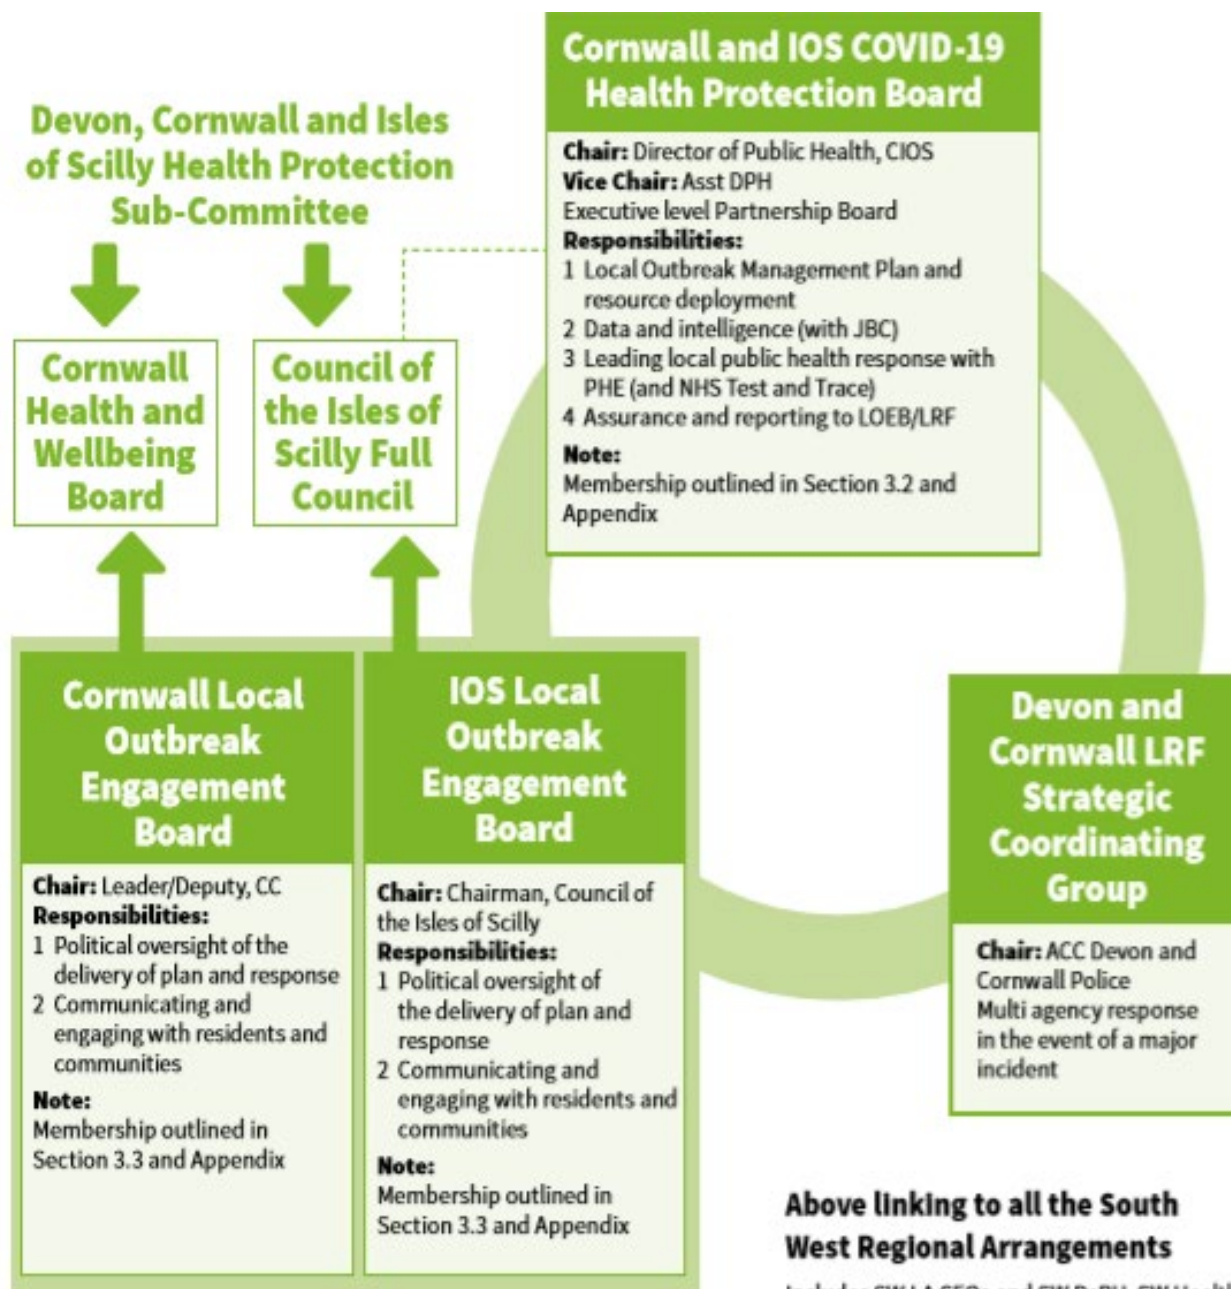

1. Groups of people working together to ensure we can respond to incidents and outbreaks
2. Cross-council with partners representatives
3. Responsible for responding to cases and outbreaks in settings/groups of the population
4. Have response packs for each group/setting so if we need to take action can do so quickly
5. Use this group to exercise scenarios and identify gaps
6. Comms input at this level is essential

Specific settings	Vulnerable groups
Care Homes/Supported living	Refugees & Asylum Seekers
Universities & Colleges	Gypsy, Traveller and Roma
Schools	Disabled People and Carers
Early Year Settings	Mental Health Service Users
Homeless	Older People
Hospitals	People with underlying health conditions
Workplace	Migrant workers
Isles of Scilly	People who are shielding
Tourism	Health and care staff
Public Transport, Airports and Ports	BAME populations
Large manufacturing plants	Vulnerability and/or complexity including domestic abuse

Outbreak and Incident Management Group

1. Meet weekly to form the Outbreak and Incident Response Group
2. Share experiences and learning
3. Ensure prevention measures for all settings/groups are being undertaken
4. Exercising plans
5. Developing QA processes for all response packs and sharing resources to add resilience
6. Have an operational level risk register

Theme 3: Governance

Cornwall and IoS Health Protection Board

Chair: Director of Public Health, CIOS

Responsibilities:

1. Local Outbreak Management Plan and resource deployment
2. Data and intelligence (with JBC)
3. Leading the local Public Health response with PHE (and NHS Test and Trace)
4. Assurance and reporting to LRF, LOEB

Members to include:

Public Health (response; intel)

Public Health England

Public Protection

Kernow CCG (Clinical Director)

Infection Control CFT/RCT Trust lead (DIPC)

Resilience and Emergency Planning

Adult Social Care

Isles of Scilly Council

Peninsula Pathology Network

Military liaison

Additional members as required:

Settings leads; schools/HE, business

Comms; NHSE, Kernow Health CIC, LMC. LPC.

Cornwall Local Outbreak Engagement Board

Cornwall COVID19 Engagement Board

Chair: Leader/Deputy

Responsibilities:

- Political oversight of the local delivery of plan and response
- Communicating and engaging with residents and communities
- Act as liaison to ministers as needed

Members to include:

Cabinet members;

- Cllr Julian German (Leader)
- Cllr Adam Paynter, (Deputy Leader, HWBB Chair)
- Cllr Sally Hawken
- Cllr Cornellius Olivier
- Cllr Rob Rotchell
- Cllr Mike Thomas

Additional system leaders;

- CEO RCHT/CPFT
- Joint Accountable Officer CCG and ASC Council
- Strategic Director, Together for Families
- NHS Kernow (Vice Chair HWBB)
- Chief Superintendent, Devon & Cornwall Police
- CALC; Visit Cornwall
- Healthwatch; Voluntary Sector Forum
- Further or Higher Education rep
- Director of Public Health
- Communications Lead

Roles of others outside the formal structure

Including Cornwall Council Members, Town and Parish Councillors, community leaders, Voluntary sector leaders and workforce, businesses, workplaces, community resources

1. **Prevention** – supporting Public Health messaging, understanding barriers to compliance
2. **Response** - if clusters/outbreaks occur in settings and locations supporting the communications, understanding the issues, connecting us up with key people.
3. **Aftermath** – supporting the return to ‘business as usual’ in a setting or location.
